STARTLING REVELATIONS

BY A WONDERFUL WOMAN. Knows Your Secrets, Reads Your Very Thoughts-Tells How

She Acquired Her Power.

MRS, GENEVA BALDWIN. Mrs Geneva Baldwin, of Los Angeles, Cal., is the woman of the hour. She has attracted wide-spread attention by her wonderful insight into human nature. No less than twenty persons owe their wonderful success directly to the marvelous powers of this gifted weman. She found them employed in vocations to which they were entirely unsuited and pointed out to them avenues in which they would achieve success. Mankind is to her an open book. She reads character, abilities and talents, and points out the path of success as one gifted with the power of second sight. It is useless to attempt to deceive her or to try to hide mything from the scrutiny of her searching eyes. She has told people secrets which they believed were locked in the innermost recesses of their very souls. Her startling feats of disclosing the past and foretelling the future have called forth comment from the press and pulpit allke

It was Mrs. Baldwin who warned General Lawton of his impending death in the Philippines. She has been instrumental in bringing to justice no less than five murderers. She has rescued the weak from designing hands and has been a power for good in her community. Mrs. Baldwin says there is nothing supernatural or occult regarding her ability. She once was very skeptical, but a friend induced her to send to the Columbia Scientific Academy, New York, for a book on Character Reading which they send free and it was this work that brought her the reputation and fame which she now enjoys. She quickly learned to read the character and lives of others from their hands, faces, heads and hand-writing. She says anyone can master this science and believes it ought to be taught in every

For the benefit of our readers, we wish to state that the book to which Mrs. Baldwin refers is given away absolutely free of charge. It is a hand-some volume, replete with illustrations showing the hands, faces, heads and hand-writing of famous people. It is Intensely interesting and very valuable to everybody. It has started thousands on the roads to success, wealth and fame. It will be of infinite worth to you. You should write for this wonderful book to-day. Merely send your name and address to the Columbia Scientific Academy, Dept. 4278, 1135 Broadway, New York, and a copy of this book will be sent you by return mail, postage prepaid. 10,000 copies of this great work will be given away absolutely without money and without price

Sergeant Dawson's Quail and Ducks Disappear in Transit.

Ducks Draappear

Desk Sergeant Dawson of the Central Police District, after having long been a scourge to thieves, has at last become the victim of one. And the circumstances are such as to make him feel "sore" with a vengeance. The better part of the results of a week's shooting in Southern Illinois was purioined by some lover of game, who did not care to take the necessary effort to get it by his own exertions.

The Sergeant departed ten days ago for the swampy country in the vicinity of Cairo, Ill. When his leave was up he started home with five dozen quali, twenty-five mallard ducks and a wild turkey. The game was all bunched up in a bag and sent by baggage. When the choice assortment of birds reached St. Louis their owner found that three dozen of the qualiten of the ducks and the turkey were missing.

HOUSEWIFE BURNED TO DEATH.

Apron She Was Wearing Caught Fire as She Was Cooking.

REPUBLIC SPECIAL

Shelbyville, Mo., Nov. 17.—Mrs. Joseph
Bowles, an aged lady, who lived alone in
this city, was fatally burned at her home
this morning.

She was cooking a chicken in a stew pan
on the coals in her heating stove. When
she went to remove the vessel from the
stove, she used her apron to protect her
hands from the fire, carrying the vessel on
either side. The fire ignited the apron and,
in her excitement, she failed to untie the
garment from around her waist, but ran
screaming from the house.

Neighbors heard her screams and rushed
to her rescue, but not until the flames had
spread to her other clothing and fatally
burned her. She died this afternoon in
great agony.

J. L. Simmons of Sydney, O., Thinks

He Was Robbed in a Theater. J. L. Simmons of Sydney, O., who has been in St. Louis for several days and has been staying at No. 4016 West Belle place, reported to the police that he had been robbed of a pocketbook containing a Big Four Railroad pass, a Frisco pass from St. Louis to Wichita, Kas., and a note for \$1,215, signed by J. L. Simmons and drawn in favor of John Simmons. Mr. Simmons is of the opinion that the pocketbook was stolen while he was at the Olympic Theater.

AMERICANS DO NOT LIKE THE FRENCH.

Many Individual Encounters Between the Troops in and Around Tien-Tsin.

NEITHER SIDE WITHOUT BLAME.

Chaffee's Men Resent Taunts From Europeans in Good American Style-Prisoner Said to Have Been Struck by an Officer.

Tien-Tsin, China, Oct. 24.-The presence of a large number of troops here in contignous camps and with naturally existing national prejudices is causing considerable friction, and several unpleasant incidents have occurred.

So far, however, none of them has progressed beyond the stage of incidents easily adjusted, and on all sides there is a very evident disposition to treat these occurrences as the natural result of military conditions.

One of the chief causes of friction has been the number of pontoon bridges thrown across the river. There are three of these within the space of a mile, and, as the river is crowded with junks and towboats. some conflict has been the result. Most of the trouble has occurred at the French bridge, and twice trouble has resulted be-tween the French guards and the American sentries on the boats.

Trouble at Bridges. A few days ago a string of twenty junks coming downstream was held up at the French bridge for several hours, in spite of the protests of the American guards on

board. Finally word reached the American headquarters of the condition of affairs, and an officer was sent up to the bridge. He found a French sentinel on the forward boat, and promptly ordered him off. There was a sharp interchange between the American and French officers, but the sentry was re-

General Sumner then arrived, and the result was that the bridge was opened and the boats allowed to pass. A day or two ago there was another bit of friction, in which both sides rather overstepped the limit, and are fairly chargeable with some blame.

The bridge regulations require that only one boat may go through at a time. A fleet of junks in charge of a noncommissioned American soldier came down, and an attempt was made to take three of them through the draw abreast. In coming through the junks jammed in the draw. and the American on the leading boat and

the French bridge guards clashed.

The Frenchmen attempted to arrest the American and a fist fight ensued, in which one Frenchman went overboard and several were badly used up. The American was finally overpowered and put under guard. He was soon released, but, according to his statement, he was struck while under arrest by a French officer. Struck a Prisoner

The man stated that two guards held their bayonets at his heart, while an of-ficer hit him in the face, cutting a gash over his eye. The matter is now under

investigation.

The feeling between the French and American soldiers apparently dates from the killing of Corporal Hughes, of the killing of Corporal Hughes, of the Third Artillery, some weeks ago by a French sentry, whom he, with two com-panions, attempted to rush in order to cross the bridge after dark. The camps of the Fifteenth Infantry, the Third Artillery and a section of the French force are very close together, and there is evidently considerable bad blood between

It cropped out recently, when a French soldier cut the lead team of an American army wagon across the head with a stick. The teamster jumped out of the wagon, and, according to reports, gave the offender and several of his companions some pretty rough handling.

TIGER HUNT ON THE INDIAN OCEAN

Animal Escaped From Its Cage, to the Alarm of a Steamship's Crew.

REPUBLIC SPECIAL. New York, Nov. 17.—The steamship Afridi, Captain Golding, which left Singapore on October 2, arrived here to-day. She brought from the East an interesting collection of wild animals and birds, which will probably go to the Bronx Park Zco. Among the beasts is an ourang-outang and a small Bengal tiger, that are its way out of its cage one night on the Indian Ocean

and created a panic in the officers' quar-The tiger is about half grown. A few days out from Singapore sailors cleaned the animals' cages, and the tiger was somewhat weakened in being moved. That night it ate through a heavy wooden bar and let itself out into the room. The door was open,

jury in a Pension Claim.

Kansas City, Mo., Nov. 17.—The Reverend Alonzo Rich was to-day. In the United States District Court, sentenced to two years in the penitentiary and fined \$100 for perjury in a pension claim.

Rich formerly lived in Michigan, where he was a traveling preacher. He married the widow of an Iowa soldier, who afterwards secured a divorce from him for cruelty. Then, to help her obtain a pension, Rich perjured himself by swearing that their marriage was illegal, asserting that he already had a wife. In his trial it was proven that he had no other wife. When sentence was about to be passed, Rich said:

"I am an old man, 65 years of age, broken in mind and body. I know I have sinned and deserve punishment. I throw myself upon weather was warm, and the tiger had the freedom of the deck. Chief Officer Pentreath was on duty that morning. On the way from the bridge to his quarters with a lantern in his hand, just before daybreek, he came upon the tiger crouching in the companionway. The animal siunk away from the light.

Most of the doors to the officers' rooms were open, and a tiger with business instincts is not a desirable roommate.
"The tiger's loose!" shouted the chief

There was an instant slamming of doors along the companionway, but that of Chief Engineer Hays's room remained invitingly open. The tiger leaped past it and went forward. Mr. Hayes had not been aroused forward. Mr. Hayes and not seen droused by the first clamor.

Every one turned out with a lantern, and a tiger hunt began on deck. The beast was chased back through the companion-way, and meal, tempungly placed, lured it into its cage again.

TWO GENTLEMEN OF JAPAN. C. Nyemura and K. Yagi Inspect

St. Louis Breweries. C. Nyemura and K. Yagi of Sapporo, Japan, are at the St. Nicholas. The Japanese gentlemen are interested in a railroad and a brewery in Japan, and they are in this country for the purpose of studying the American method of brewing. Yesterday they inspected the various breweries of the city. They will depart to-night for Peoria. Ill. to study the method of the American distillers. Both are cducated gentlemen and while they do not talk English fluently they are easily understood.

In speaking last night of the difference

in brewing, Mr. Yagi said he thought the American system was the most rapid, but, perhaps, the beer was not so good as the German-made article. He said the idea in this country seemed to be to convert the article into dividends as soon as possible. In Japan beer sells for about 12 cents for a third of a pint. The beer is put up in bottles only and is equal to the American beer. There are no saloons in Japan and the beer is carried by grocers and other tradesmen. SENT PIGSFEET BILL TO SENATOR HANNA.

the beer is carried by grocers and other tradesmen.

Speaking of the relations existing between the United States and Japan, Mr. Nyemura declared that the name of Commodore Perry was revered by every school boy in the land. The history of Perry's treaty with Japan is taught in the schools of the country. He declared that where formerly Japan purchased most of the hops of its beer in Germany, in recent years there had been a change and now most of the hops were coming from the United States. He declared that the ruture relations between the two countries could only grow more cordial, and he expected to see the commerce between them increased within the next year.

The gentlemen were shown through The Republic building last night. They displayed the greatest interest in all the departments. Them Burn While He Listened to the Ohioan.

REPUBLIC SPECIAL. Cleveland, O., Nov. 17.-Senator Hanna received a bill to-day for thirty-six pigsfeet, and he ordered it paid at once. The Senator had not eaten the pigsfeet, nor had he seen nor even received thm. The bill came from Mrs. Christiana Dunlap of Fort Wayne, Ind., and the Senator was charged \$1.80 for the three dozen. Accompanying the bill was a letter from

Mrs. Dunlap, in which she said: "I know you will think me a very bold woman for writing you this letter, but I am a poor washerwoman, and my old man is a day laborer, and between us we have to work very hard to support our five little eblidren."

Mrs. Dunlan then writes that she had mrs. Dumap then writes that she had purchased three dozen pigs' feet at fly cents each and had put them on the stove to cook. Her husband had agreed to watch them while she went out to do some work. That was on the evening Mr. Hanna spoke in Fort Wayne, and Dunlap, forgetting all about the pigs' feet, went to the political meeting. When Mrs. Dunlap returned home she found the pigs' feet on the stove burned

to a crisp.

"To think," concludes the letter "that
my husband and a good Democrat, would
negled his duty and those expensive plus"
feet just to hear a big Republican like you is enough to cause trouple in any family. is enough to cause trouble in any family. Then when he returned home he announced that 'Mark Hanna was all right,' and he would be darned if he would vote for Bry an!'

Senator Hanna laughed heartly when he read the letter, and then, turning to hamer Lover, his secretary, said:

"Give her my compliments and inclose \$2. She needs't mind the change."
